PROJECT OVERVIEW

SUMMARY REPORT INFORMATION

Company Name:	BC Government Retired Employees' Association.
Branch Name:	Peninsula & Gulf Islands (Branch 2500)
Survey Start:	December 6 th , 2021
Survey End:	January 22 nd , 2022
Report Date:	March 4 th , 2022.

SUMMARY STATISTICAL INFORMATION

Survey Population:	226
Sampling Method:	Census, no sampling used.
Responses:	73
Response Rate:	32.30%
Confidence Level:	.95
Confidence Interval:	+/- 9.46 points 19 times out of 20
Main Research Question:	What are the main activities that are a priority for BCGREA members, and what are the communication methods and frequencies preferred by members?

This research report is based on the *General Members Survey* conducted by CDR Business Diagnostics on behalf of the BC Government Retired Employees' Association. The purpose of the survey was to collect data regarding the activities that are a priority for members, and what communication tools and frequency of communications are preferred by members when receiving information from the Association. **This report is filtered to only include the responses submitted from the branch indicated above.**

The survey ran from December 6th, 2021, to January 22nd, 2022. The survey was run census style, with no sampling methods used or required. The response rate for this branch was **73** completed responses out of a total branch membership of **226**. The total completion rate for the survey was therefore **32.30%**, which makes the survey accurate within +/- **9.46** points, 19 times out of 20. Due to the fairly low response rate and the relatively high margin of error, the results in this report may not be representative of the entire branch membership; however, the report may still provide useful insights.

The survey on which these results are based was completely anonymous and contained a mix of single answer and 'select all that apply' type quantitative questions, most of which had an 'Other' box to capture additional data. In addition, there was a one final open-ended qualitative question included at the end of the survey. Data was collected via a secure research server accessible only to staff at CDR Business Diagnostics.

All information is presented in aggregate form to ensure respondent anonymity pursuant to provincial and federal legislation and research ethical guidelines. All data for this survey was collected and managed in a manner consistent with the *Tri Council Policy Statement on the Ethical Conduct of Research*.

QUALITATIVE RESULTS

The survey included one final open-ended question, worded as follows:

Is there anything else you would like the BCGREA Provincial executive group to know or consider moving forward?

The written responses submitted by survey respondents in this branch are included below in their entirety. They have not been edited in any way other than to remove any identifying information, and to correct obvious spelling and grammar errors. Responses have been grouped by themes that are presented alphabetically.
