THE PUBLIC SERVICE PENSION BOARD OF TRUSTEES WANTS YOUR THOUGHTS ON EXTENDED HEALTH CARE COVERAGE

The Public Service Pension Board of Trustees wants to hear from you! Whether you have extended health care (EHC) and/or dental coverage through the plan or are using a different provider for your health care needs, they want to know what you think about EHC and dental coverage.

The board periodically reviews the health benefits program to ensure that coverage aligns with members' needs. In April, a global marketing firm, IPSOS, will email survey invitations on behalf of the board to retired members and surviving beneficiaries living in Canada. This survey will allow you to share your thoughts on health and dental coverage in retirement and help the board shape the program for the future.

If you'd like to receive a survey invitation, make sure we have your current email address. Sign in to My Account on the plan website to review and update your email address, or register with My Account by March 31, 2026. To register or update your contact information, log in through the plan website: myaccount.pensionsbc.ca.

To learn more about the EHC and dental coverage currently available to retired PSPP members, visit pspp.pensionsbc.ca/retirement-health-coverage, or [contact the plan](#) if you have questions.
